## Past Performance

**Department of Homeland Security (DHS), Naval Information Warfare Center (NIWC)** SST serves as a support contractor for the Interoperable Communication Technical Assistance Program (ICTAP) and Cyber Resilient 911 (CR911) programs, bringing information security concerns to the forefront of the public safety community in the form of risk evaluation and security assessments. SST has been instrumental in the development of an assessment program for the public safety community and emergency communication centers by developing security control assessment overlays tailored to the community's needs. SST serves as a subcontractor to Lafayette Group Inc.

**United States Postal Service (USPS) Office of Inspector General (OIG)**, SST provided project management and senior subject matter expertise to the OIG as part of the assessment and authorization of OIG hybrid cloud environment. Assessment activities included Azure, AWS and on premises networks and applications to include in house developed applications. SST served as a subcontractor to Valiant Solutions.

**Department of Commerce (DoC), Enterprise Services (ES)**, SST serves as a support contractor to the ISSO for the NICE InContact call center solution within the Enterprise Services Human Resources Service Center (ESHRSC). Our role is to provide continuous monitoring support, documentation updates and support for annual certification reviews. SST serves as a subcontractor to Golden Key Group.
